**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This two story, five bay residence maintains the original shiplap facade. The building has a centre gable roof, the cornice of which has been decorated with consoles placed at intervals of two. At the center of the gabled main facade is a Victorian round arched window, double hung, 2/2.

The second story windows are segmental arch design with lugsills and semi-elliptical shutters. The first story windows are the same design, however, much larger in height and 4/6. The segmental arch design is also visible in the transom of the main entrance. The entrance also contains a single leaf door with sidelights and a decorated moulding below the transom.

The flat roofed, open veranda is supported by posts which are connected by wide planks between.

SPECIFIC DATES 1875-99

BUILDER/ARCHITECT

**STATEMENT OF SIGNIFICANCE**

The simply designed structure is reminiscent of Victorian architecture as evidenced in the use of the segmental arch, semi-elipse and Victorian round design. The structure, through its simplicity and symmetrical balance of architectural elements, is representative of a popular building style in the Waverly area.
